Resume-Job Match Report

Resume:	Ayan's _Resume.pdf
Job URL:	https://internshala.com/job/detail/fresher-full-stack-developer-job-in-meham-at-vishnu-cre
Match Score:	49.3%
ATS Score:	70%

Strengths

- Your resume includes 'ai' which is required for this role
- Your resume includes 'angular' which is required for this role
- 'angularjs' not listed, but your 'angular' experience covers ~84% of it - a short bridge course should close this gap
- Your resume includes 'artificial intelligence' which is required for this role
- Your resume includes 'css' which is required for this role
- Your resume includes 'git' which is required for this role
- Your resume includes 'html' which is required for this role
- Your resume includes 'javascript' which is required for this role
- Your resume includes 'mongodb' which is required for this role
- Your resume includes 'mysql' which is required for this role

Weaknesses

- The job requires 'analytical' and it's not covered by your current skills
- The job requires 'aws' and it's not covered by your current skills
- The job requires 'azure' and it's not covered by your current skills
- The job requires 'gcp' and it's not covered by your current skills
- The job requires 'java' and it's not covered by your current skills
- The job requires 'machine learning' and it's not covered by your current skills
- The job requires 'php' and it's not covered by your current skills
- The job requires 'postgresql' and it's not covered by your current skills
- The job requires 'vue' and it's not covered by your current skills

ATS Feedback

- Low keyword match - customize your resume for this job
- Strong skills section with 25 identified skills
- Education section found
- No explicit experience years found - quantify your experience
- Good resume length (358 words)
